

POSITION LIMITS COMPLIANCE SIMPLIFIED

PLD & EOPLD: Validate position limits data with these low-cost, effective data sources

Validating position limits data on a daily basis is an arduous and time-consuming responsibility. FIA Tech's **Position Limits Databank (PLD)** and **Equity Options Position Limits Databank (EOPLD)** make it easier to obtain data required for pre-trade screening, complex post-trade monitoring and exchange and regulatory reporting.

On a daily basis, FIA Tech aggregates, cleanses and validates limits data from exchanges and governments around the world to eliminate inconsistencies or omissions. Together, the PLD and EOPLD serve as industry utilities and are the only consolidated source for global position limits and related regulatory information data in the world.

KEY FEATURES

- Continuous coverage on more than 41,000 global products including futures, options on futures, cleared swaps, delivery and shipping certificates, stops and warrants, warehouse receipts, equity options, etc.
- Data includes accountability levels, reporting levels, position limits, contract aggregations, diminishing contract indicators, mini contract multipliers and more
- Up-to-date data to help firms mitigate risk and compliance lapses
- Data available via Web portal and in XML and ASCII file formats via FTP
- Email alerts to stay informed of limit changes, rules and new products
